STORY

Since ages long past, the legend of the Light has been handed down from generation to generation. The legend tells that the world would remain safe so long as the four Crystals maintain their brilliance—the Crystals of earth, fire, water, and wind. Should the Crystals lose their light, the skies will blacken, the lands wither, the seas rage, and sleeping volcanoes erupt in a flurry of lava. In this hour four warriors would appear, each guided by a Crystal. They are the Warriors of Light.
