Players continue the battle on foot with an arsenal of weaponry including pistols, rifles, grenades and more. Furthermore, players can gain access to an array of ground vehicles and lay waste with powerful weapons mounted on jeeps, tanks and specialty transports.

The stunning graphics and power of PLAYSTATION 3 set the stage for a truly unique *Warhawk* universe filled with hundreds of on-screen vehicles and troops, floating battleships, cruisers and carriers, captivating landscapes, destructible cities, and vibrantly detailed environments for both off- and online gameplay.
